

## Mostotrest PJSC

Mostotrest PJSC is Russia's first integrated and diversified holding offering a complete range of infrastructure construction services. According to industry consultant EMBS Group, it is also the Russian leader in construction of transportation infrastructure as measured by revenue from projects completed in-house.

One of Mostotrest's 15 regional offices – Mostootryad-125 – is located in Kolomna (Moscow region).

Mostootryad-125 is a specialist in building and upgrading highway, rail and municipal bridges and roads, as well as other engineering work. The company also offers operating, maintenance and repair services for roads and bridges and invests in infrastructure projects.

Kolomna-based Mostootryad-125 manufactures its own concrete, reinforced concrete structures and other construction materials.

The company's LAN handles over one hundred computers, including laptops and mobile devices. The network uses a domain with DNS servers and network gateways (a PC equipped with Traffic Inspector) to grant authorized users access to the Internet.

Traffic Inspector offers comprehensive network services that protect the company's specialists as they use the company's internal network and the Internet.

Traffic Inspector's most popular features:

- Monitoring of users' online activity
- User authentication
- Management of network statistics
- Reports

Traffic Inspector was developed in Russia and is the most cost-effective IT security solution available today. The software delivers 100% on its promises. Mostootryad-125 acquired multiple Gold 30 licenses and is pleased with its choice.

With Traffic Inspector, Mostootryad-125 gained the tools it needed to increase employee efficiency by controlling and monitoring Internet use and providing clear guidelines on acceptable Internet activity.

“ We want to thank you for improving the security of our PCs and LAN with Internet access and for providing timely support whenever we need it. Traffic Inspector works without a hitch and performs 100% of the tasks we require.

We get fast answers to our questions whenever we contact technical support. We love the product and wish your company the best of success in the future.

Best wishes, Alexander Fomin  
head of the IT department
