

HOW TO INSTALL TRAFFIC INSPECTOR

This document describes how to install Traffic Inspector on your network.

The installation file for Traffic Inspector can be downloaded from <u>http://www.trafinsp.com/</u>. Navigate to the download section of our web site and click the Download button.

Double left-click on the installation file to start Traffic Inspector installation. If you are installing on Windows 7 or Vista, there will be a UAC prompt, so click **Yes** to let the installer run.

Traffic Inspector prerequisites include Microsoft .NET Framework 4.0 and Microsoft Visual C++ Redistributable Package. In case these components are missing, they will be automatically downloaded and installed, so Internet connection is required.
